

**Amendments to the Specification:**

Please amend the specification as follows:

Please insert the following before the paragraph starting at page 1, line 12:

**BACKGROUND**

Please replace the paragraph starting at page 1, line 12, with the following:

The invention relates to a drum flap, in particular for distributing air in a motor vehicle ventilation system, ~~, as described in the preamble of claim 1.~~

Please replace the paragraph starting at page 2, line 9, with the following:

This object is achieved by a drum flap described herein, ~~having the features of claim 1. Advantageous configurations form the subject matter of the subclaims.~~

Please insert the following before the paragraph starting at page 1, line 13:

**SUMMARY**

Please insert the following before the paragraph starting at page 3, line 32:

**BRIEF DESCRIPTION OF THE DRAWINGS**

Please replace the paragraph starting at page 3, line 32, with the following:

In the text which follows, the invention is explained in detail on the basis of four exemplary embodiments and with reference to the drawing drawings, in which:

Fig. 1 shows a perspective view of a drum flap in accordance with the first exemplary embodiment,

Fig. 2 shows the drum flap from Fig. 1 from a different perspective,

Fig. 3 shows a side view of the drum flap from Fig. 1 in order to illustrate its function in a first position,

Fig. 4 shows a side view of the drum flap from Fig. 1 in a second position,

Fig. 5 shows a perspective view of a drum flap in accordance with the second exemplary embodiment,

Fig. 6 shows a perspective view of a drum flap in accordance with the third exemplary embodiment,

Fig. 7 shows the drum flap from Fig. 6 from a different perspective,

Fig. 8 shows a detail view of region E from Fig. 7,

Fig. 9 shows the drum flap from Fig. 6 from a different perspective,

Fig. 10 shows a detail view of region D from Fig. 9,

Fig. 11 shows a side view of the drum flap from Fig. 6 with two detail views,

Fig. 12a-c show three views of a motor vehicle air-conditioning system with the drum flap from Fig. 6 in different positions,

Fig. 13 shows a perspective view of a second motor vehicle air-conditioning system with two drum flaps,

Fig. 14 shows the air-conditioning system from Fig. 13 from a different perspective,

Fig. 15a-f show side views of the air-conditioning system from Fig. 13 with various flap positions, and

Fig. 16 shows the drum flap in accordance with the fourth exemplary embodiment used in the air-conditioning system from Fig. 13 in the form of a perspective illustration.

Please insert the following before the paragraph starting at page 5, line 16:
